

General Tasks

Remember to keep up with reading, both silently to yourself, but also regularly out loud to someone else, in order to practise expression and flow.

Continue to practise your times tables, using a range of online games as well as getting an adult to test you orally. Remember to aim for answers within 6 seconds and without using fingers!

Literacy and Maths tasks will be sent on a weekly basis, on a grid like this. We will also be setting Mathematics tasks and checking them often. Have a go, but please do not stress if you find any of them too hard.

Science:

Choose 3 animals from different habitats (where they live). Describe the habitat:

- What does it look like?
- What food does it provide for your animal?
- What is the weather like there?
- Does it provide shelter or camouflage for your animal?
- Would your animal survive in a different habitat?

PSHE/ RE:

Choose 2 people that you are missing - it may be family or friends.

Write down:

- 3 things that you miss doing with them.
- 3 things that you miss about them, e.g. their laugh, how they make you feel, their jokes!
- 3 new things that you would like to do with them when you can see them again.

Can you show your work to that person? Maybe you could send it to them in a letter or take a photo and send it.

History:

Queen Anne reigned from 1702 to 1714. She was a particularly important queen because she joined Wales, Scotland and England together as Great Britain. On the 1st May 1707, the Acts of Union were finalised to create a United Kingdom of Great Britain. From here onwards, Wales, England and Scotland would share a monarch, a parliament, a flag and a currency (money) - Ireland joined later.

You have been given the task of creating a new flag for Great Britain! What colours will you use? Will you include pictures? Describe what you have included in your flag and why.

PE:

It is important that during this time you keep yourself active. Joe Wicks is showing daily workouts on his YouTube channel - The Body Coach TV. These are 30-minute workouts and can be done with the rest of your family too!

Music:

Listen to your favourite song and make up a dance to go with it. It may be for the whole song or just a part of it, like the chorus. See how creative you feel! You might want to video your dance or write a description of the moves you included.
